Re: Mexican Patent No. 239881 issued August 30, 2006  
Title: **Transport Block Size (TBS) Signaling Enhancement**  
Your Ref: P03/1408  
Our Ref.: NOKIA.27MX

---

Dear Maarit:

I am pleased to enclose herewith original Mexican Letters Patent No. **239881**, issued on August 30, 2006. The patent contains four independent claims and twenty-one dependent claims. The expiration date of the patent is October 23, 2023. The enclosure is an original document and should be properly preserved in a safe place. Any products sold in Mexico pursuant to the patent should include the legend "Patented Product". Working of patents is not compulsory in Mexico. However, if this patent is not worked prior to August 30, 2009, it will be subject to compulsory licenses, that is, any third party may obtain a compulsory license after that date.

The next annuities are the 9th to 13th annuities due on October 11, 2011. According to Nokia's Guidelines, we will not attend to the payment of annuities.

Very truly yours,

**LACKENBACH SIEGEL, LLP**
